

Scanner Tablet

Keep up with inventory in any of our industrial vending machines as well as those in customers' tool cribs and part bins with the 1sourcevend Code Scanner Tablet. Automated reports combine barcode, QR code or other scanned data with connected machines to help customers reduce inventory waste, identify usage trends and maximize profits.

Benefits:

- ✓ Scan inventory item barcodes stored anywhere
- ✓ Streamline purchasing
- ✓ Decrease inventory shrinkage
- ✓ Sync inventory data with or without vending machine inventory in software for complete reporting
- ✓ Training, setup and ongoing support provided

We are excited to be fully connecting our proprietary inventory management software, industrial vending machines and customer tool room bins for distributors to offer the most modern and robust solution to their customers.”
– Mark Hill, President
